Provincial Library Dec '30

TWENTY-FOURTH YEAR

NO. 7

GLEICHEN, ALBERTA, WEDNESDAY, MAY 7, 1930

SUBSCRIPTION \$2.00 PER YEAR

Gleichen School Notes

The school basketball team and the baseball team went over to Arrowwood on Friday afternoon to play the games arranged last term, which were postponed on account of the lateness of the season. On arrival at Arrowwood shortly before 5 p.m., the wind and the dust made play more of an ordeal rather than a pleasure. However, the basketball game was started at the earliest possible moment, and play proceeded. It was soon evident that Arrowwood were the better team, and deserved to win on the team work shown. However, though beaten, we were not disgraced, and more team practise, combined with practise at basket-shooting, will without doubt remedy most of the weakness so that wins will result more frequently. The game was surprisingly fast considering the conditions. The only unfortunate incident being the accident to Margaret Desjardins, who sprained her ankle quite badly. Our best wishes are tendered to her for a speedy and complete recovery. In this connection our thanks are due to Mrs. Saunders who procured bandages and dressing and very capably attended to the comfort of the patient.

The baseball also went in favor of Arrowwood, after a tight game, in which, at first, it look as if we were going to win. However, a loose throw allow Arrowwood to begin their tally, and eventually they ran out winners by 4-3. The high lights of the game were a home run by John Cook, an excellent catch by Arthur Clifford and the pitching of Gerald Yates. More fielding and throwing practise will give the pitcher needed support.

We wish to thank Mrs. G. Desjardins, Mr. O. Desjardins, Hugh James and Doug Mattson for kindly taking the players.

With the examinations getting near, one should be sure to get all necessary exercise, so as to keep fit, but with all things a due moderation will bring results and means should be subordinated to an end. Hence the proper allowance of study is the essential thing coupled with real concentration on the task of the moment.

BOYS' WORK BOARD PREPARING CAMP PROGRAM

The Alberta Boys' Work Board are already making preparations for their 1930 camping program. It is confidently expected that there will be in the neighborhood of fifteen district boys' camps in as many localities throughout the province. These camps present an opportunity for purposeful character building activities for Trail Ranger and Tuxis Boys as well as those boys who come from Sunday school classes from the various denominations. Camp Tuxis the provincial leadership training for older boys of 16 years of age or more, will be held from July 7 to 16 at Kasota Beach, Sylvan Lake. The leadership will be the best available. Plans for this camp are rapidly taking shape. Nine days in the out-of-doors at one of Alberta's beauty spots with all the varied activities of a broad camping program are assured for those who share in the fine fellowship of this camp.

Well directed camps are being recognized as vital mediums in the educational process today. Conduct and ideals as well as information are found in the education gained through camping. It is hoped that in the near future all teen-age boys will be able to spend part of each summer in a well-equipped, well-directed boys' camp.

K. OF P. DISTRICT NO 6 MEETS IN GLEICHEN

Monday night the Gleichen Masonic Hall was filled with Knights of Pythias visiting Golden Jubilee Lodge. The occasion being a meeting of District No. 6, when Grand Lodge of

DEVELOPMENT BOARD "MADE-IN-ALBERTA" CAMPAIGN

For three consecutive years the Alberta Development Board, southern section, has been conducting a campaign advocating the purchase of Alberta Made Products. Not only has this particular campaign been undertaken, but each year the board advertises in a number of agricultural newspapers of the United States pointing out the exceptional scenery of Southern Alberta and the Rockies; stressing the advantages of land settlement in Alberta and also throughout the Dominion of Canada bringing to the front the necessity and need of industrial development. Its efforts have been successful. New settlers have been directly traced, new industries have been established, and as for the number of tourists, the increase has been definitely proved to be a result of the Board's advertising appeal.

It was interesting to note that at the annual meeting of the Alberta branch of the Canadian Manufacturers' Association held in Edmonton last month, the convention impressed on the public mind the increasingly important position attained by manufacturing in the province. The membership in six years has grown from 90 to 240. The manufacturing output has been conservatively estimated at slightly above \$100,000,000 in 1929. This total indicates the importance of the manufacturing industry of Alberta. Over \$82,000,000 has been invested in manufacturing enterprises in this province. They are paying about \$14,000,000 a year in salaries and wages to over 11,000 employees.

It is becoming more apparent all the time that the continued prosperity of Alberta depends on diversified development. The era of dependence on grain alone to produce revenue for the support of a growing population is fast passing away. It is too precarious. Agricultural activities will have to expand in other directions than wheat growing. Mixed farming, live stock production, dairying, these will assist in ensuring a more certain income for the farm, but side by side with these it is important that manufacturing should be encouraged as greatly as possible as well as the development of Alberta's great natural resources such as coal, gas and water power.

The citizens of Alberta should realize that not by grain alone can we live but by the varied interests, agricultural and industrial can Alberta pre-empt a place in the sun. If the citizens support the purchase of Alberta Made goods our prosperity will be more quickly assured.

Officers took charge and a Calgary degree team exemplified the third degree composed of members from Rathborn and Crescent Heights members comprising Bros. A. McArthur, R. Logan, E. Tucker, G. W. Black, John Crane, Ray Buker, Duncan Mead, C. M. Danker and Len Moore, attended by Bros. H. G. McKenzie, H. C. Lawson, John Gore, A. T. Walton, A. Sparks and A. Wenzig.

C. C. P. Fleming opened the meeting and conducted the regular business of Golden Jubilee and after extending a welcome to the visitors from Medicine Hat, Calgary, Standard, Arrowwood and elsewhere vacated the chair in favor of Grand Chancellor A. E. Hartley, who carried on the meeting of the Grand Lodge of the Domain of Alberta with the following officers in their respective chairs: Bro. A. McArthur, P.G.C., supreme representative, Bro. C. Black, P. G. C., supreme representative, Bro. E. A. Powers, Past Grand Chancellor, Bro. W. T. Bannan, G. K. R. S., Past Grand Chancellor, Bro. F. D. Knowlton, Grand Prelate, Bro. F. D. Mead, D. G. C., Calgary, Bro. N. A. Riddell, Deputy Grand Chancellor, Bro. L. M. Christensen, Deputy Grand Chancellor, Bro. E. E. Murray, Deputy Grand Chancellor, Bro. I. C. Robertson, Deputy Grand Chancellor. This proved a most enjoyable and

Fine Children's Program For May 24th sports Day

Baseball And Sports Predominate

All looms up in fine shape for Gleichen's Annual Sports Day, May 24th, and a big crowd is already assured to witness the excellent program.

For the baseball tournament four teams have been secured for the occasion, namely Meadowbrook, Queenstown, Arrowwood and Standard which will make a very fine attraction as all are old rivals that are ever ready to meet and conquer.

The program will be crowded full for the day. In fact so much is included that some will overlap, making a choice of events to suit all who attend, which will be seen by the following set:

1 p.m. First baseball game. 1:30 p.m. children's sports. 2:30 p.m. second baseball game. 6:30 p.m. final baseball game. 6:30 p.m. picture show. 9 p.m. dance.

FINE AMATEUR EFFORT BY GLEICHEN I. O. O. F.

Congratulations are extended to the dramatic section of the I. O. O. F. on the success of their latest effort in the world of Thespia. One is always prepared to enjoy the presentation of any play of merit by our friends and neighbors. This play has merit, and is quite capably produced. Evidently a great deal of thought has gone into the arrangements, for the various scenes are appropriately grouped according to the end in view. The construction of the play is in agreement with the dramatic unities of time, place and action, for the time allotted is two hours, the place is a drawing room, and the story never flags.

The cast comprises veterans at the game and new beginners, who after a rather nervous opening settled down well and gave a good performance. Mr. Marcellus plays, in a convincing manner, the part of Henry Becker, a highly strung banker who has committed an indiscretion in Chicago, previous to the opening of the play, and on which hangs the whole of the plot. The part of the expert adviser, Valentine Scott, who facile in invention nearly wrecks the domestic happiness, as well as the business prospects of Becker by his often misguided attempts to help out his friend, is capably done by Mr. R. A. Brown.

A typical stage Englishman, James Darby, creates some embarrassing situations, especially when with three sick people on the stage, he calls up two doctors and a veterinarian without saying who is in need of the horse-doctor. We are glad at the end that Mr. Pineau finds a place to sit down, for he plays with restraint and skill a part that could be easily overdone.

Space forbids individual mention of the casts separately, much as we would like to do so. Mrs. Egles and Mrs. Sather give very pleasurable interpretation of the contrasting female characters. Mr. Greer as Montgomery Walsh, Alcom Brown as Walter Dow take advantage of every opportunity while Miss Katie Lewis as Dr. Blair, Miss Phillips as Jean Darby, and Miss Crawford as Caryl Carroll are business-like or effectionate as necessity arises, but charming always. So—what would ye more, my masters? One thing more, that usual nuisance on an amateur first night, the prompter was not in evidence. We thank Mr. Daffoe for his apparent non-existence.

The story is concerned with the (Continued on another Page)

PROF. F. H. SOWARD TO ADDRESS GLEICHEN CANADIAN CLUB

Friday, May 10th

Professor F. H. Soward of the University of B. C., will be the speaker at a meeting of the Canadian Club on Friday evening, May 9th, at 8 o'clock, in the dining room of the Gleichen Community Hall. His subject will be "Anglo-American Naval Relations."

Professor Soward is on his way to Ottawa to attend the meeting of the Canadian Historical Association.

An invitation is extended to the public to attend the meeting on Friday evening. The subject of the address is one of great interest. Non-members of the Club will be charged 25 cents admission.

BEGRIE-JOHNSTON

A quiet wedding took place on Saturday evening, May 3rd, at the United Church Manse, when Rev. C. R. Corcoran united in marriage Miss Effie Edith, daughter of Mr. Duncan H. Johnston of Gleichen, to Mr. Robert Cruickshank Begrie of Calgary, in the presence of a few intimate friends of the bride's family. Mrs. Begrie is well known in Gleichen where she lived for some time and where she went to school. More recently she has been engaged as a trained nurse on the staff of the Calgary General Hospital. Mr. Begrie is a son of Mr. and Mrs. Wm. Begrie of East Calgary. The happy couple will reside in Calgary.

The poultry situation is becoming of some proportions in the district, and eggs are coming into town in enormous quantities. The Ramsay Mercantile Co. took in over 300 dozens on Saturday and the other stores no doubt got their share as well. The baby chick business is interesting also, a great many of the farmers wives all over the district are going in for baby chicks on a much larger scale than usual. This is good healthy business and these registered birds are revenue producers in the winter months when eggs are a big price.

A NORTH DAKOTA IDEA

Something unusually fine in civic life is reported in an article by B. S. Palmer of the Department of Agriculture, who tells of a community park for both town and rural people, established near Niagara, N. D.

This park is financed, owned, maintained and operated by representatives of the town and country populations, who meet there on equal terms in a spirit of neighborliness for mutual enjoyment. Chautauqua courses, athletic games and contests, picnics, and various club and community meetings are held in the park which is a real community center.

It is a splendid idea. It is an idea that ought to spread and be put into action throughout the land. The interests of town and country people are identical in the larger sense. They should fraternize more, become better acquainted and develop a spirit of mutual helpfulness.

Saturday Night in Gleichen Community Hall

Just a Few Plain Facts

Everyone is now aware of the existence of the Red & White Store in Gleichen and for miles around people have come to take advantage of this branch of the great chain of stores.

It is a recognized fact that the RED & WHITE MERCHANTS are so organized that much of the present-day waste in distribution is eliminated. The RED & WHITE STORE in your district is not merely meeting competitive prices—it is making low prices. On the ground that he is saving you money the RED & WHITE merchant asks for your business.

The wonderful advantage of a "Tie-up" with such a powerful organization as this chain of stores permits us to buy our goods at the lowest prices possible. It also enables us to pass on the advantage to our customers not only in price, but also in quality and service.

Look For Prices Every Saturday and Monday
Remember we manufacture BREAD, CAKES and all kinds of PASTRY right here in Gleichen. In Confectionery we excel.

Catering To Tourists

Approximately twenty millions of dollars will be expended by the Governments of the three Canadian prairie provinces in the construction and maintenance of good roads this year, not to mention several more millions which municipalities will devote to other roads not included in the system of through Provincial highways and main market roads. It is a lot of money. It represents the largest single item of expenditure for any one service. It means an outlay of at least ten dollars for every man, woman and child in Western Canada.

A very considerable portion of this vast sum is being expended on the assumption that, quite apart from the benefits that will directly accrue to our own people by reason of these good roads, they will be the means of attracting an ever increasing volume of tourist traffic from other Provinces and the States to the south, and that these visitors will bring much business and profit to our people through the purchases and expenditures they will make in this country. In a word, the avowed object of a goodly portion of this expenditure is to encourage visitors to tour the West.

Good roads, admittedly, are essential if we are to develop a large tourist business. But, in themselves, they are not enough. These prospective tourists can find good roads, possibly better ones than we can offer, much nearer home, if a fine highway over which they can speed in comfort and safety is all they are looking for. They will come to Western Canada to enjoy a new, a virgin land. They come expecting something different. What is Western Canada going to provide?

Are we going to allow our highways to be disfigured,—as they have been south of the international boundary line,—by unsightly billboards and advertising devices of various kinds, defacing the landscape, obscuring the scenic beauties our country has to offer, oftentimes confused by drivers with the legitimate road directions, signs, and an eyesore to all? Governments and municipalities can, to a large extent, control the placing of such signs on the highway right-of-way, but individual property owners must co-operate by refusing permission for the erection of billboards and the plastering of signs on private property and buildings.

Our cities, towns and villages should seek to make their respective communities attractive to the visitor, and special attention should be devoted to the approaches to the main roads leading into and out of each settlement. The smaller the place, the more important it is that the surroundings be right, because they are noted to a greater extent by visitors than is the case in larger centres.

Community spirit and enterprise should find expression in having all places in which visitors are interested, and must visit, as, for example, hotels, cafes, garages, post offices, as clean, neat and efficient as possible. Gasoline and oil companies are setting a good example in making filling stations attractive in appearance, especially in larger centres, with rest rooms, wash rooms, comfort stations, etc. They are out to give service. Other businesses may well emulate them. Even the smallest place on a through highway can support such services.

The main highways through towns and villages should be clearly marked, and the location of such utilities as the post office, the telephone exchange, telegraph office, auto camp, prominently indicated.

Above all, courtesy should be the watchword of every citizen. It should be remembered that they are strangers who are entertaining in your midst. What to you is commonplace, is to them strange and new. They desire information; then go out of your way to supply it. Make them realize how welcome they are so that, when they depart, if they carry away no other impression, they will at least, remember your town as one where the people were cordial, kind and helpful.

The millions of dollars that are being expended on highways is your money. Its expenditure is designed to benefit you and your community directly and indirectly. Make the most of it. This you can only do by individual and community co-operation.

Should Be Experts

Hotel records were claimed by employees of the Hotel Cecil, in London, England, when it closed recently. Miss Sara Dawson, a chambermaid, said she had made 62,000 beds in the last 30 years. E. Mott, a valet, had pressed 205,000 pairs of trousers in 16 years. Harry Eadla, elevator man, claimed he had made 26,000,000 "lift" trips.

Portage la Prairie Exhibition

At a meeting of the Portage Industrial Exhibition Association the other day, a plan was submitted and approved for the construction of a new building for the housing of fine arts and domestic manufactures. It is hoped to have this building in readiness for the fair this summer.

More than 500 bagpipes formed a band in a recent concert in London.

Russia claims that there are now 1,200,000 Communists in the world.

Nature and Art

Amateurs who are perplexed about the new style of painting will be ready to endorse the following protest which appeared recently in an Eastern Canada magazine: "Sir: I seen the picture of the Rocky Mts. in your paper. I don't know art but I know the Rocky Mts. The picture may be art but it ain't the Rocky Mts. Yours, etc."

The Modern Wolf

The wolf that used to sniff around the door now occupies an easy chair in the parlor, right next to the radio, and within easy reaching distance of the iceless refrigerator, the vacuum cleaner, and other necessities of life.

Eight ambulance airplanes now operate through the Sahara Desert.

The name April is derived from a Latin word meaning "to open."

Strikes In Canada Decrease

With One Exception Last Year Most Peaceful Since 1902

With one exception, 1929 was the most peaceful year in Canadian labor since 1902, the number of workers affected by strikes and lockouts falling to 12,924, and the days lost to 153,936. Steady progress toward happier relations between employer and employee has been registered since 1922, the number of workers affected being as follows: 1922, 41,050; 1923, 32,868; 1924, 32,494; 1925, 25,796; 1926, 24,142; 1927, 22,683; 1928, 18,238; 1929, 12,924.

The figure for last year was only nine per cent. of the 1919 total, the year of the Winnipeg strike. Toronto figured in three of the minor strikes of the year. The painters' strike involved 600 workers, and lasted 35 days, the time loss being 7,500 working days. The plumbers' strike involved 400 workers, lasted 19 days, the time loss being 7,500 days. The plasterers' strike involved 500 workers for 12 days, causing 6,000 days' time loss.

ST. VITUS DANCE SUFFERER MADE WELL

Nerves Strengthened Through the Use Of Dr. Williams' Pink Pills

Time after time cases are brought to the notice of the public where sufferers from nervous troubles have been relieved by Dr. Williams' Pink Pills—where victims of St. Vitus Dance have been made well through the use of these pills after other medicines have failed to be of benefit. The reason for this is that Dr. Williams' Pink Pills act directly upon the blood—they make new, rich red blood and in this banishing all impurities from the blood strengthen the nerves and make St. Vitus Dance impossible.

Mrs. P. Donnelly, Montreal, Que., is one more grateful mother who wishes to add her testimony to those already published. She says:—"My little girl, aged eleven, was a great sufferer from St. Vitus Dance. Several doctors prescribed for her without benefit. She was in the hospital for two weeks—still no benefit. I then saw an advertisement recommending Dr. Williams' Pink Pills for St. Vitus Dance, so decided to try them. My little girl had only taken a couple of boxes when I noticed some improvement so I continued with the treatment till now she is completely free from the trouble and can enjoy herself as other children do. I can highly recommend Dr. Williams' Pink Pills to anyone suffering from St. Vitus Dance or any other form of nervous trouble, for what these Pills have done for my daughter I am sure they will do for others."

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Needs Assistance Of Engineers

To Secure the Best Social and Economical Development In Canada

"We went westward and now we are going northward," said Brigadier-General Charles Hamilton Mitchell, describing the development of Canada to the American Society of Mechanical Engineers, at Washington. General Mitchell made plain the results of improvement in transportation, in development of hydro-electric energy, among the people of the Dominion.

The general informed the assembled international engineers of the importance to Canada of the development of transportation by land, water and air, of the tremendous result of the mechanization of the agricultural industry, of the "miracle of paper," and the extraordinary mining development.

"Looking to the future," he concluded, "a young country such as Canada with its huge natural resources, will still more demand the fullest assistance and contribution from its engineers to secure the best economical and social development. When that best is obtained then the best political and cultural results will be assured."

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

He had spoken to her on the pier and she was very annoyed. "I don't know you from Adam!" she exclaimed, indignantly. "You ought to," he retorted. "I'm dressed differently."

Of the 18 persons over 100 years old who died in England during 1929, only three were men. Eight of the 15 women had been married.

In spite of all jokes, figures prove that Englishmen are more saving than Scots.

Dry, Burning Throat Made Life Miserable

Have You These Symptoms?

"For three years I was seriously bothered by a bronchial cough. At night I would awaken with a dry, irritable feeling in my throat. I couldn't cough up anything but very soon my throat got into quite an inflamed condition. Once I got CATARRHOZONE INHALER I was all right. I took it to bed, and if an attack awakened me the inhaler gave me relief. Catarrhozone has restored me and I strongly urge every one with a weak throat to use it regularly."—(Signed) J. B. Beammer, Reading. Catarrhozone will not disappoint you. Get the complete \$1.00 outfit; it's guaranteed. Small size, 50c. At dealers everywhere.

Catarrhozone
A Ten-Minute Relief!

Loss Is Unnecessary

All Baby Chicks Can Be Raised If Properly Looked After

"There is no sense in the idea so many people have, that you have to figure on losing a big percentage of your baby chicks," says P. F. Clardy, former president of the American Baby Chick Producers' Association, and for thirty-five years a practical poultry raiser. "Start with good vigorous chicks from healthy stock, properly hatched in modern incubators. Give them the right kind of care and feed, protect them from chilly winds and rains and from vermin and rodents, and there is no reason why you should not raise practically every baby chick."

"In all my years of experience, I have found that, aside from the very important factor of starting with a quality of chick in the first place, the most important thing in poultry raising is to give the birds the care they are entitled to. A baby chick is a tiny bit of life, but how it will grow when it gets a good start!"

"I have found that strict attention to keeping the living quarters of poultry absolutely clean is a great help. Filth spreads disease! Cleanliness opposes it. Of course undue exposure must be guarded against also."

"So long as the Chinese doctor keeps his patients well, the story says, he gets his pay regularly. Whenever they become ill, his pay stops until he makes them well again. Consider yourself your own poultry doctor. So long as your birds are well and thrifty they will pay you; consequently, it is up to your interest to keep them well all the time."

Fresh Supplies In Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put in most portable shape in bottles and can be carried without fear of breakage.

A Modern Fog Alarm

Partridge Island Signal Derives Power From Diesel Engines

The Partridge Island light and fog signal station at the entrance to St. John, N.B., harbor, said to be the first steam-operated fog alarm in the world, will in the near future derive its power from modern semi-Diesel engines. In adopting this modern power the station may again lay claim to priority, for it will be the first of the kind in Canada. Other stations depending on oil engines have only internal combustion motors utilizing gasoline as a starting mixture and operating on kerosene as a regular fuel. The light on Partridge Island was established in 1791, and the fog signal in 1859.

A Remarkable Record

To cross the Atlantic twice every year on the White Star liner "Baltic," ever since the steamer began service more than 25 years ago, is the record of Mrs. M. C. Wilcox, 88-year-old resident of Larchmont, N.Y., who has arrived at Halifax on her 55th crossing. Her first ocean trip was made on the maiden eastbound voyage of the "Baltic."

Sharks shed teeth and grow new ones throughout their lives.

Germany Has Train Phones

Passengers Can Communicate With Any Part Of Country

Passengers on expresses between Berlin and Hamburg, Germany, are able to get into telephonic communication with any part of the country while the train is travelling at sixty miles an hour. They merely enter an ordinary telephone box on the train and ask for the number and place they require. Connection is obtained by means of an aerial running along the roofs of the carriages, from which ether waves are transmitted by electric current on to the ordinary telegraph wires running parallel with the railway, and so, by way of Berlin or Hamburg, to any part of Germany.

Huge Aerodrome For London

Building Three Hundred Feet Above Ground Is Planned

The Daily Herald, newspaper organ of the Labor party, announces that the British Air Ministry is investigating possible sites for an enormous aerodrome to be built in the heart of London.

The paper says that the proposal contemplates erection of a 'drome 600 yards square, 300 feet above the ground and capable of standing the shock of the landing of the largest machines of the future. It would also house the 'planes and afford runways for starting.

Smothering Spells

Couldn't Walk Far
Gaspd For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath."

"A friend told me to try

which I did, and in a short time I felt much better.

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Skill Of Mail Pilots

No Wonder They Are Considered Aristocrats Of Air

The skill and hardihood of the pilots who fly the air mail are almost beyond belief, sometimes.

Not long ago Pilot Robert P. Hopkins, flying a National Air transport 'plane from Chicago to Cleveland with a heavy cargo, met a heavy fog bank when he arrived over Cleveland. The fog was so dense that he could not find the airport, and he circled helplessly for an hour and a half.

At last he made out a bit of the lake front. Circling low, he spied a city park with a little open space in the center. Down he came—to make a safe landing on a patch of lawn so small that in the morning it was necessary to take the wings of the 'plane off to get it out through the trees.

Skill like that hardly needs any comment. No wonder the air mail fliers are considered the aristocrats of the air!

Persian Balm is a true elixir of youth. Refreshes and rejuvenates. Adds a youthful charm to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Indispensable to the woman who appreciates subtle distinction. Delightful to use. Delicately fragrant. Soothes dry and irritated skin. Corrects and preserves. A flawless toilet requisite for every discerning woman. A true aid to beauty.

Preserving Historic Building

Alberta May Restore Old Fur House Built In 1795

Old Fort Edmonton, built 135 years ago inside an 18-foot stockade, may see partial restoration, according to the statement of Premier Brownlee in the Alberta legislature. The last building to be pulled down was the old fur-house, which until 1915, stood on the ground below the legislature. The proposal seems at present concerned only with setting up a log structure two storeys high, identical with this fur-house, which goes back to the time when John Rowland was chief factor, between 1825 and 1854. Interest is being shown in the possible erection of a miniature of the whole layout of the early fort.

Minard's has Wonderful Antiseptic Power.

Not Properly Qualified

Toronto Professor Says Universities Not Equipped To Study International Relations

Canadian universities are not sufficiently qualified for an adequate study of international law and international relations, Prof. Norman MacKenzie, of the University of Toronto, told the House of Commons committee on industrial and international relations. He knew of no university in Canada, he said, which had a library equipped for the intensive pursuit of these studies.

The committee was considering a resolution sponsored by Miss Agnes MacPhail (Prog. South-east Grey), calling for the establishment of chairs and scholarships of international relations in Canadian universities. There was a field in Canada for improvement in this respect.

Prof. MacKenzie thought parliament might well consider aiding either by grants or other means.

If the libraries were available Professor MacKenzie thought, the studies would be developed by the universities and the students themselves.

Another suggestion he advanced was that competent professors and students in Canadian universities be given greater opportunities to observe the operations of international business.

Future Of Television

Great Possibilities Are Foreseen By Earl Of Clarendon

The Earl of Clarendon, former chairman of the British Broadcasting Corporation, foresees "staggering possibilities" for television.

He says: "When it is possible to present a stage play or a national event such as the Derby on a small screen which a family or perhaps a small audience in a hall can see, then television will go like wildfire."

While we have some distance to travel before that goal can be achieved enough progress has been made to suggest that it may be attained within the next few years.

Minard's for Falling Hair

Thermometers Tested Yearly

Every year, the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for Government departments or for the general public. A certificate is given with each thermometer, which successfully passes the required tests.

Dogs Have Rights

Because he drove his car over a Boston bulldog, Robert Miller, of Hamilton, Ont., was found guilty of cruelty to animals. He was allowed out on suspended sentence, but must make good the value of the deceased animal, which was \$80. Magistrate Burbidge ruled that dogs are entitled to the same consideration on the street as pedestrians.

A Model Community

In the town of New Lanark, Scotland, established as a model community by Robert Owen, there were no lawyers or magistrates and not a legal punishment during a period of nearly 30 years.

When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.

New Industry For Canada

Eighteen Varieties Of Soybean Can Be Cultivated In Dominion

Canadian farmers are finding a new opportunity in the cultivation of the Soybean. During 1929 soybean oil and other products to a value of nearly \$2,000,000 were imported by Canadian industries. Experimental work conducted by the Dominion Department of Agriculture shows that eighteen varieties can be successfully cultivated in Canada. It grows under essentially the same conditions as corn, and generally speaking, can be grown anywhere corn grows, and with about the same results.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

King Buys Stamp Collection

King George V., who is an ardent stamp collector, has purchased the famous Purves collection of Australian stamps, which was awarded the gold medal at the 1928 international philatelic exhibition at Melbourne. The price is believed to have been two thousand pounds. The collection contains examples of all issues, many of which are unique.

One-tenth of all the Jews in the world live in New York City.

Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors that hold through wear and washing.

Diamond Dyes never give things that re-dyed look. They are just 15c at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with make-shifts?

Diamond Dyes
Highest Quality for 50 Years

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

**Too Much
ACID**

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggists.

Treat Colds 2 Ways With One Treatment

RUBBED ON throat and chest, Vicks does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and

(2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

WORLD HAPPENINGS BRIEFLY TOLD

The 900th anniversary of the Speyer cathedral will be celebrated on July 12, 13 and 14 of this year.

Summer time in England went in to effect at 2 a.m. April 13, and clocks were set one hour ahead.

Pilot Mermoz broke the French duration record in a seaplane, landing after thirty hours, twenty-five minutes and forty seconds in the air.

The salaries and expenses of the pensions appeal board of Canada last year were \$45,100 in excess of the awards they had made.

Production in the cotton and jute industry of Manitoba for 1928 amounted to \$5,043,413, which is a little more than one-fifth of the total production for Canada.

Kaye Don, British automobile racer, has definitely abandoned his plans for attempting to beat the world's automobile speed record at Daytona Beach, Florida.

Marquis still constitutes more than one half of the western grain crop, growing tests of samples taken from forty-eight cargoes of Canadian wheat exported to England in 1928-29 show.

Plans to negotiate a parcel post treaty between Cuba and Canada are being studied by the Cuban state department. The treaty would seek to increase the consumption of Cuban products, principally sugar and tobacco in Canada.

Thirty-four dairy herds qualified this year for honor roll certificates issued by the Department of Agriculture. On this basis of this newly introduced system of recognition 13 herds would have qualified in 1927, and 27 in 1928.

University Students In Canada

56,042 Students Enrolled At the End Of 1928

Students doing work of university standard and taking matriculation courses in Canada at the end of 1928 totalled 56,042 of whom about 20,900 were women. Of the total 40,987 were full time students, 3,813 part time and 11,603 vacation short course and extension students, 361 being duplicates enrolled in more than one category.

There are 23 universities in Canada, of which six are state controlled. The total teaching staff of universities numbers 4,078, of whom 3,544 are men and 534 are women.

In all the educational institutions of Canada the enrolment totals 2,342,391, of which 2,054,298 attend publicly controlled kindergarten, elementary and secondary schools.

The Manitoba hydro electric power development program for 1930 calls for an expenditure of \$2,000,000 on extending transmission lines into rural areas.

The early bird gets the worm, but, unhappily, the too early bud gets the frost.

It takes at least seven years for a pearl to grow.

Jap Fishermen Alarmed

Soviet Russia Takes Steps To Curtail Fishing Zone

Canada some years ago took steps to discourage Japanese fishermen in British Columbia waters by reducing the number of licenses in force and refusing Japanese the privileges of securing new ones, and now Soviet Russia has adopted strong measures against Japanese fishermen on the Siberian and Kamchatka coasts.

Japanese fisheries interests are somewhat alarmed by the activity of the Russians on the Kamchatka fishing grounds and the reported intention of the Soviets to obtain control over a large proportion of the available fishing zones.

It is reported that the Russians plan to take over more than fifty per cent. of the salmon fishing zones on Kamchatka. Last year they held approximately forty per cent.

Every year the authorities at Kamchatka hold an auction at which bids are offered for the fishing zones. The Soviet has in the past restricted the activity of private Russian operators with the result that Japan has been able to obtain most of the territory. The Soviet has apparently changed its policy, however, and has authorized the Russian operators to go ahead and secure as many licenses as they desire. In order to further favor the Russians the license for Japanese fishermen has been increased. The Russians are said to be very much offended by the strict measures enforced by Japan in its territory towards the Russian fishermen and competition among representatives of the two nations in rival territory is becoming increasingly bitter.

Rust Control Is Possibility

Scientists Expect To Publish Findings In About Two Years

Rust, the prairie farmers' greatest enemy, is slowly backing up before the onslaughts of agricultural science. Within two years there is a distinct possibility that the disease which annually takes such heavy toll will be materially subdued and that in a comparatively brief space of time rust will cease to be such a menace.

These optimistic notes were sounded at Saskatoon by representatives of the prairie agricultural colleges, who for a decade have been battling this scourge. Asked by Dr. J. H. Grisdale, federal deputy minister of agriculture "How near is the solution of the problem?" the various scientists replied optimistically that while far-reaching results had been obtained, it would be another two years before definite and final findings could be published or rust-resisting strains of wheat distributed.

Rubber Overshoes For 'Planes

Lace Over Wings and Prevent Formation Of Ice

Overshoes for aeroplanes—a new method of keeping wings free of deadly ice—were announced at Cornell University, Ithaca, N.Y.

They are a discovery in safer flying announced as a result of "successful tests" in the mid-west.

The overshoes lace over the forward edge of the wing. They are a thin layer of specially vulcanized rubber exuding continually a colorless oil which is the secret of the success. It is announced that the ice does not stick nor the oil "scrub off."

This slipperiness alone is insufficient and so the overshoes have a small hose under their striking edge. A slight pulsation of pump driven air in this hose breaks the ice as it forms on the wing edge, and so prevents air from pressing the forming ice fast against the wing.

London's Busiest Woman

Known as London's hardest-working woman, Mrs. Alice Tabrahams, a widow, has just announced that she will retire, after 25 years of public life. In the morning she works as scrubwoman in the offices of the local Labor Party; in the evening she presides over the Edmonton Education Committee or attends the Urban District Council, of which she is a member. In addition she does all her own housework and cares for the children. She says she needs a rest.

Where Women Farm

Women form a major portion of the farmers of some foreign countries. In 1921, more than 5,000,000 of them were engaged in agriculture in Germany. In Bulgaria, Estonia and Lithuania, women form the majority of farm workers.

The Vicar: "The collection this morning will be taken in aid of the Arch Fund and not as erroneously printed in the Parish Magazine in aid of the Arch Fiend."

Gold hoardings in India are thought to be more than \$5,000,000,000.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red pkg.

Southerners Are Anxious To Visit Canada

Opening Of Hudson's Bay Route Has Been Great Advertisement

Thousands of American tourists from the southern states will visit Canada this year as a result of the advertising given the Dominion through the opening of the Hudson's Bay Railway, stated E. A. McCallum, of Regina, who returned to the city after a three months' vacation spent in Mississippi and Alabama.

"Everywhere I found the greatest interest in Canadian affairs," Mrs. McCallum said. "The opening of the Hudson's Bay route has been a tremendous factor in calling attention to the development in this country. Many of these southerners had had an idea Canada was a land of snow and 60 below zero temperatures. Now they want to see this great country which has an ocean outlet at its extreme north."

(By Annabelle Worthington)

A navy blue silk crepe that expresses simplicity and good taste for mature figure.

The circular skirt in wrapped treatment falls in graceful drape at left-side front, giving the figure charming length.

The hips are extremely flat. The surplus bodice with collarless neckline, shows lingerie influence in white crepe vestee. It's a stunning dress for street.

Style No. 3363 comes in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Printed crepe with plain, light weight woolen and crepe marocain appropriate.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

A tribe known as the Balla tribe, who knock out their front teeth and dress their hair with brass-headed nails, has been discovered in a little-known district in Northern Rhodesia.

Tip For Visitors To Germany

Custom Is To Touch Your Hat To Doorman

A Berlin correspondent says about this business of tipping your hat: "I just saw a German gentleman lift his hat to his chauffeur before he stepped into his car." It was in response to the greeting of the chauffeur who tipped his cap as he opened the car door. Not to respond would have been a discourtesy to the chauffeur.

If you walk out of an ordinary Berlin coffee house the doorman touches his gold braided cap to you and you doff your fedora, hamburger, topper, Derby, or what have you. If you don't you're insulting the doorman, the coffee house and the entire German nation, also setting yourself down as a low boor into the bargain.

The Germans are certainly not behind the French in formality. As for kissing the hand, there's lots of it in Berlin. Fully as much as in Paris, which I was always led to believe was the handkissing place on earth.

However, the hand kissing laurels are apparently neither to the Latin nor to the Teuton. They would seem to belong to the Slav. The Russian seems invariably to kiss the lady's hand—if she be a married woman, by which sign you can always tell the married ones—whether the kisser and kissed be of low or high station.

At least, sitting in cheap Russian restaurants in Paris, frequented by taxi drivers and laborers, I have observed every man jack of them upon entering the place go straight up to the proprietor's wife and expansively and deeply bend over her outstretched hand.

Nor are all Russian taxi drivers in Paris princes and generals, rumor to the contrary notwithstanding. Some of them are just taxi drivers.

Depends On Individual

Statement Of Aristotle Would Not Apply In Every Case

Aristotle says we must have a fair degree of worldly goods; poverty makes one stingy and grasping; while possessions give one that freedom from care and greed which is the source of aristocratic ease and charm.

The truth of this statement depends very largely, if not altogether, upon the individual. There are many examples which will show that, even in the most abject poverty, there is as great an absence from greed as can be found by those who possess much worldly goods. There are many who have much of this world's goods who cling to them instead of sharing with those who have been less fortunate. Of course he had in mind the condition of the individual rather than the individual itself, in which case the possession of goods does give an aristocratic ease and charm.

Everybody Satisfied

Family Could Enjoy Reading Paper By New Method

The latest invention is a machine which read aloud from the printed page. This should prove a boon to the army of men who have to hurry to work in the morning. They could get their morning paper, set the machine going while they whistle in the bathroom, take it to breakfast and let it run till they bid good-bye to their superior halves at the front door, by which time they would have heard the chief news. Then the paper could be left for the ladies of the household to read the shop advertisements, the social news, etc. The whole house would be satisfied.—Montreal Gazette.

Shipments From Peace River

During the calendar year 1929, the Peace River territory shipped to Edmonton 5,350 cattle, 28,160 hogs, 1,445 sheep and 780 horses, besides sundry other products, including sacked seed. Nearly 11,000 home-steads were filed in the last two years and over 100,000 acres were broken during 1929.

"I hear your brother is dead. It must be a great loss."
"Not much. He was never a good dancer."—Buen Humor, Madrid.

Wonders Of Insect World

Russian Naturalist Tells Of Many Remarkable Things

Describing the trends of early life, Chetverikov, the Russian naturalist, says in an article in Tit-Bits, that in geological times the vertebrates seemed bent on growing larger, defending themselves in the struggle for survival by accumulating strength. The insects chose another route to survival; by being small they could live in safety, thus filling the chinks and crannies if creation.

Insects lived on the earth long before man came to take his place of dominion, and many scientists predict that insects will remain after man has ceased to be a mundane tenant.

Before our primeval ancestors had dreamed of a better anaesthetic than a club, the glowworm had evolved a sleeping potion so subtle that its victim could not perceive its administration, yet so powerful that nothing could disturb the sleep it induced.

Before our ancestors had domesticated even the dog, ants were keeping "cows" and growing "mushrooms." Before man had learned to kindle a fire, the social bees were employing in hive ventilation the identical principles that industry now uses in keeping pure air in coal mines.

Recipes For This Week

(By Betty Barclay)

VANILLA DESSERT WITH CHOCOLATE SAUCE

1 package vanilla junket.
1 pint milk.

Prepare junket according to the directions on package. Let stand until firm, then chill.

Chocolate Sauce: Melt 1 square unsweetened chocolate in saucepan, placed in large saucepan of boiling water. Add 1 tablespoon melted butter, and when thoroughly blended, pour on gradually, while stirring constantly, ½ cup boiling water; then add 1 cup sugar. Bring to the boiling point and let boil fourteen minutes with ½ teaspoon vanilla.

BAKED ECONOMY

Into a well-buttered pan put slices of raw peeled potatoes and a little pepper. Then a layer of uncooked, sliced ham. Add another layer of potatoes and ham and pour on this cream sauce (1 tablespoon flour, 1 tablespoon butter, to 1 cup milk.) Sprinkle bread crumbs on top and bake in a moderate oven until brown and potatoes are well done. Serve hot. Just enough ham can be used to give the desired flavor, which has the advantage of making a little ham go a long way. For picnics this can be baked at home in a heavy tin dish with a cover and reheated over hot water on a campfire.

Record For Mail 'Planes

Only One Fatal Crash Has Occurred Since Service Commenced

'Planes employed by the Dominion Government for the carrying of air mail in Canada have flown approximately 929,000 miles since 1927, with but one fatal accident marring their fine record. The crash referred to occurred recently at Kingston, Ont., when two men were killed. The accident probably was due to poor flying conditions.

Reviewing the country's air mail system, Hon. Peter J. Veniot, postmaster-general, found two other crashes occurred in which 'planes were destroyed, but fortunately no loss of life incurred. Estimates the postmaster-general will shortly submit to the House of Commons embrace provision for linking up Montreal and Winnipeg by aeroplane, except for a night train trip from Montreal to a point in northern Ontario as yet not finally decided upon. Canada's air mail system will then extend from Halifax to the Rocky Mountains.

Part of the trans-Canada air mail routes are going to pay "handsomely," the postmaster-general believes, while it will take three or four years to build up the necessary business to make it a paying proposition. It is understood that no franking or free mailing privileges will be extended on the air lines whatsoever. The recent air mail rates call for a five-cent stamp on each letter, which is but three cents more than the ordinary two-cent letter rate.

Benefiting from the experiences of the United States Government air mail service, the Canadian Government awards its contracts to aeroplane companies on the basis of mileage flown with a load of 600 pounds of mail. This plan is found to work more satisfactorily than the United States first plan of hiring 'planes on the basis merely of weight in mail carried.

Sodium Sulphite Deposits

Over One Hundred Million Tons Of Natural Hydrous Salts Found In Saskatchewan

As a result of investigation made by the Canadian Government Department of Mines, it has been established that the sodium sulphate deposits in the Province of Saskatchewan contain over 100,000,000 tons of natural hydrous salt. These deposits have been looked on as of great potential value not only to meet commercial requirements in Canada but because of the possibility of developing important export markets. One of the important uses in Canada is in the pulp and paper industry where large tonnages of the anhydrous sodium sulphate or "salt cake" are used in the production of sulphate or kraft pulp.

Most always you have to go out of your way to find trouble. Who ever saw a telephone pole in the middle of a highway?

France has the fastest war vessel. It recently steamed at more than 46 miles an hour.

NO MORE STOMACH TROUBLE

"No more stomach trouble. Can eat anything," writes Mrs. E. White. Thousands say indigestion, heartburn, gas, vanilla like magic with 'Fruit-a-tives'. Constipation, sick headaches and over-tired nerves, heart quiet, sound sleep at once. Rheumatism flies away. Complexion clears quick. Get 'Fruit-a-tives' from druggist today.

Elevator Operators

Must Accept Grain

Storage Reservation Not Permitted Under Clause In New Act

Elevator operators are compelled to take in grain submitted to them by farmers when they have accommodation for it under a clause in the new Grain Act, approved by the committee on agriculture and colonization. They are not to be permitted to reserve storage space for customers in advance; but must take in grain as it is offered as long as they have room.

Discussion of this provision raised the question of the discretion of the elevator operator to refuse damp or smutty grain. Some members of the committee thought they should not be required to accept grain unsuitable for storage, thereby tying up storage facilities and preventing the movement of good grain. This question was left to stand over until a section covering it could be prepared and submitted to the committee.

Along the Frontiers In Manitoba

Manitoba May Develop Salt Water Fishing At Churchill

Manitoba, with Churchill as its seaport, has assumed the status of a Maritime province, and development of an extensive salt water fishing industry is one of the possibilities in the near future. Hon. D. A. McKenzie, Minister of Mines and Natural resources, prophesied such an industry during an address in Winnipeg. He had been informed by those qualified to speak that there was every prospect of good fishing being conducted on a large scale, with Churchill as the base for the fishing fleets.

Synthetic Bee Stings

Perfection of synthetic bee stings has been announced by the medical laboratories of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis of bee venom and claim to have succeeded in duplicating and improving it. The stinging chemical is said to cure rheumatism.

"Willie, didn't I tell you to shut that shutter?" said Willie's mother.

"The shutter's shut," replied Willie, "and I can't shut it any shutter."

A device for quickly patching holes in disabled submarines while they are under water has been found satisfactorily by United States navy officials.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARNs SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

BEFORE YOU MAKE A PURCHASE COMPARE THE LOCAL PRODUCT

Apart from the many excellent reasons why you should give preference in your buying to "MADE-IN-ALBERTA" PRODUCTS, you will find on examination and comparison that they appeal to you by merit alone and that the range of ALBERTA-MADE GOODS is far greater than many citizens realize.

Keep the Wheels Turning in Alberta's Factories

Over \$82,000,000 is already invested in Alberta industries. Your failure to support these industries in your buying will result in unemployment, substantially reduce the wages of Albertans and indirectly affect your own earning power. Your support will insure better business, busier factories, more work and larger payrolls.

ALBERTA DEVELOPMENT BOARD

Southern Section
J. H. HANNA, Sec'y BOARD OF TRADE
CALGARY

Town of Gleichen

All householders are hereby notified to burn up all weeds and rubbish and to have all garbage in and around the property occupied by them removed to the nuisance ground before May 10, 1930. Failure to comply with this notice will result in prosecution.

M. MURRAY,
Secretary-Treasurer.

FINAL WARNING

This is a final warning that one and all are forbidden to ride bicycles on the sidewalks anywhere in the town of Gleichen.

GLEICHEN TOWN COUNCIL

COMING EVENTS

May 9—Prof. F. H. Soward address: Gleichen Canadian Club.

May 10—Spring apron sale by United Church Circle, from 3 to 6 p.m.

May 16—Baseball game in Meadowbrook Hall.

May 21—U. F. A. nominating convention in Strathmore.

FINAL WARNING TO GAS THIEVES

Editor The Call:

The bug artists who start touring operations around town about the time other citizens are retiring had better take a gentle hint. Too much gas is being syphoned from cars these nights and the victims are going to stand this only a short time. These boys are well known and have been on the job for some time and some of these fine mornings they will be late for school. A word of warning may help out.

CITIZEN.

(Continued from page 1.)

FINE AMATEUR EFFORT BY GLEICHEN I. O. O. F.

efforts of Becker to hide from Walsh the fact that the young woman in his company in a Chicago resort was unknown to him. Walsh is considering a substantial loan to Becker to enable him to control his bank. To appear in person against whom there is no breath of scandal is essential, so Mrs. Becker is passed off as Miss Becker and his cousin is introduced as his wife. Many amusing situations appear as a result of this deception in the course of which we see a good deal of plain and fancy lying that all fails of its purpose, as it must. Walsh finds out the deception and Becker sighs for a desert island, but just in time Miss Carroll appears with a perfectly innocent explanation of the apparent scandal; she is also the woman Walsh recognizes as his true love, Walter Dow and his sweetheart are reconciled after a stormy and interesting quarrel; Becker and his wife are once more united, and they live happily ever after—especially James Darby who in the course of events manages to land himself a job in the bank—with six months back pay for long service.

Mention should also be made of the orchestra who played between acts, and of the work of Mr. Sather as stage manager.

While the heavy roles were those of Becker and Scott, yet considerable of the success of the play is due to the very capable support rendered by the ladies of the caste, who are to be congratulated on a sterling performance.

Judging by the laughter and applause the members of the audience thoroughly enjoyed their evening's entertainment.

Here and There

(515)

The trans-Atlantic speed record between the ports of Liverpool and Saint John, was broken recently by the arrival at the latter port of the Canadian Pacific liner Duchess of York, after a crossing from Liverpool which took six days, 22 hours and 14 minutes. According to local shipping men this is the first time in the history of the port that a crossing has been made in under seven days.

Twelve thousand pounds of Quebec maple sugar and syrup were handled daily during the latter part of April by the Canadian Pacific Express Company to points overseas, the Prairie Provinces and Ottawa, constituting what is claimed to be a record movement of this dainty. Outside commercial uses, demand for this product arises on the part of individuals who make a practice of shipping it to relatives and friends in the Old Country and the west of Canada.

Close on six million dollars were spent on New Brunswick roads during 1929, being reconstruction of 221 miles of main trunk highways and 1138 miles of secondary roads. This is regarded as the most extensive programme of highway construction, improvement and maintenance ever undertaken in the Province.

Snapped in Hyde Park, London, England, recently, Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, was photographed kissing his cousin, the small daughter of the Hon. Mrs. Arthur Howard. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

Organized a few years ago by a group of farmers' wives with Mrs. Bertha Holmes, of Asquith, Sask., as president, the Saskatchewan Poultry Pool handles about 75 per cent. of the entire egg production of the province. Last year the Pool turned over 26,840,184 eggs, valued at \$540,000; 825,743 pounds of dressed poultry valued at \$184,000, and 39,561 pounds of live poultry at \$6,000, or a total turnover of \$730,000 for the year.

After 15 years of seed planting, the experimental work of the Canadian Government Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the prairie provinces. Of these varieties two have been graded "very good," and four "good."

The first "Improved Sire Area" in Manitoba has been established in the municipality of Roland, according to announcement made by Albert Prefontaine, Minister of Agriculture of the province. Under this scheme all bulls, boars and rams must be inspected and approved before owners are permitted to retain them for service in the Area.

Over \$82,000,000 have been invested in manufacturing enterprises in the province of Alberta and they are paying about \$14,000,000 yearly in salaries and wages to over 11,000 employees. A similar rapid development in industrialism in the sister provinces of Manitoba and Saskatchewan is to be noted. Combined, the three provinces have now a yearly output of manufactured goods in the neighborhood of \$325,000,000.

When Mrs. Harry Cale of Chipewa Falls, Wis., cared for an injured collie five years ago, she did better than she knew. Recently the dog twice saved the life of her little son, Robert; once by dragging him out of the way of an approaching automobile, and again by giving the alarm when the room in which the child was playing caught fire.

Mrs. Harriet Worman of Chicago declared in her suit for divorce for cruelty that her life with her husband had been "a decade of torture."

TOWN OF GLEICHEN
OFFICE HOURS

9 a.m. to 12:30 p.m. and
2:30 p.m. to 5:30 p.m. Daily

Council meeting second Friday
of each month at 8 p.m.
This office will be closed as follows:
Sundays, Statutory Holidays and the
last fortnight of July each year.

ALSO
First two legal working days of each
month for meter reading and first two
legal working days following the
fifteen of month for collections, etc.

M. MURRAY,
Secretary-Treasurer

About 8,000 wild horses were killed
last year in Arizona alone.

More than 21 miles of the Caribou
trail in New Mexico have been
explored but its site is still unknown.

Town & District

The kiddies still remain quite cold.
Delicious Beauty Parlors. Phone
56, Gleichen.

The kiddies will have a whale of a
time at Gleichen May 24th.

Correction in examination results
Machine Stubs, total marks 337,
number of subjects 4, average 84.25.

The Meadowbrook Baseball Club
will give a dance in the Meadowbrook
Hall on Friday, May 10th. All the fans
will be there.

Seeding is proceeding under most
favorable conditions known in years
in this district and by the end of the
present week practically all the wheat
will be in.

There are three things practically
due to happen June 19: 1st Farmers
Government sustained; 2nd John C.
Hockley's reelection; 3rd Premier
Brownlee's big majority.

Provincial politics continues very
quiet. Neither the Conservatives nor
Liberals appear to be much interest-
ed and at present it would appear no
present member J. C. Buckley might
go in by acclamation which would be
a great boost for his third term.

Every business man in Gleichen
should have an ad in this issue con-
necting up with the Alberta Devel-
opment Board to boost "Made-in-Al-
berta" products. The Board's ad in
this issue should be read by every-
body. All should be interested in any-
thing manufactured in Alberta as it
means more work for the unemployed
and more produce to supply them—
more everything for everybody.

ST. ANDREW'S CHURCH
SERVICES

Children's service 11 a.m.
Holy Communion 11:45 a.m.
Evening 7:30 p.m.

CARD OF THANKS
We wish to extend our sincere
thanks to all our many friends who
so kindly gave of their valuable time
and sympathetic assistance during
our time of affliction and the sorrow
and bereavement of our loving com-
panion and mother.

G. E. HARR & FAMILY.

Firestone GUN-DIPPED TIRES FOR EVERY PURSE

FIRESTONE Tires
are famous every-
where for their high
quality and low cost per
mile. Because of their extra
strength and toughness,
they hold all world's records for
mileage and endurance.

No matter what price you want to pay for
tires --- go to your nearest Firestone
Dealer. He has a Firestone-built tire for
every purse and purpose---tires that offer
the greatest value --- that save you
better and save you money.

PETE DESHAYES, Prop.

Here and There

(1515)
With a prepared average greater
by 21 per cent. than that of 1929,
a better material situation and
other indications promising several
good conditions for the year, the
Canadian West is now busy seed-
ing, according to the latest report
of the agricultural department of
the Canadian Pacific Railway.

Nearly \$25,000,000 was voted by
the Ontario Legislature recently
for hydro-electric development
work to be undertaken this year
in the province for the Ontario
Hydro-Electric Commission, a pro-
vincial government organization.
Over \$15,000,000 is to be spent on
the extension of the Niagara hydro
system, upon which many mill-
ions have already been spent to pro-
vide cheap electric power over a wide
area of rural and urban territory.

"There is a very large amount
of capital in England ready for in-
vestment, and it is felt in that
country that it should go to Can-
ada," said Major L. A. Jones, econ-
omic editor of the London Morn-
ing Post, who headed recently at
Saint John from R.S. Dickson of
Alberta on a trip to Canada for the
purpose of fostering better econ-
omic relations between the Domini-
on and the Motherland.

Four new square refuse adding
four square miles to the existing
90 square miles of garbage sur-
rounding the city of Winnipeg are to
be established in that province for the
purpose of disposing of the garbage
supply, according to informa-
tion given out by Hon. W. B. D.
Richards, Minister of Lands and
Mines.

Fish caught by commercial fish-
ermen in Canadian waters that year
had a value of about \$25,000,000.
The Dominion Land Office has
valued the fish and game products from the Dominion
in 1929, valued at \$25,000,000. More
than 8,000 persons find employ-
ment in Canada in the fishing in-
dustry.

The wild rose is now the floral
emblem in Canadian waters of Alberta.
The provincial parliament has en-
acted the legislation making this
flower which grows so profusely
all over Alberta, the provincial
symbol. Choice of the emblem
was put up to the school children
of Alberta and the wild rose cap-
tured their votes, with the tiger
fly next in favor.

Homestead entries taken out
through the Dominion Land Office
at Edmonton during the month of
March last broke all records.
That month with a total of 277
homesteads and 13 rider grants
which compares with 250 homesteads
in March, 1928, the previous
record month.

Contrary to the general impres-
sion, Canadian investments in the
United States are greater, per cap-
ita, than American investments in
the Dominion. An official state-
ment just issued shows that the
average Canadian has \$100 invested
in the United States and the
average American about \$20 in-
vested in Canada.

Something more than appearance
will be necessary for a knight to win
a prize at the World's Grain Ex-
hibition and Conference to be held
at Seattle, July 25 to August 6,
1932. All entrants getting a high
prize money at the Exhibition will
be expected, in the demand for
seed. It is because of the impor-
tance of the effect of the distribu-
tion of this prize seed to farmers
in Canada and throughout the
world that the Awards Committee
has decided that the usual judging
standards will be supplemented by a
growing test, which in reality is
the test supreme.

Bobby Jones, famous golf cham-
pion, says he will continue to play as
long as he "can walk and earn a liv-
ing as a lawyer."

China has established a radio con-
trol bureau similar to our Federal Ra-
dio Commission.

A Princeton professor, starting on
a geological expedition involving many
side trips, brought a railroad
ticket 9 feet 6 inches long.

The giant water-lily of Japan is the
fastest growing plant, growing four
feet in less than nine days.

FOR RENT---Seven roomed dwelling
and wired for electric light, with
bath. Apply to Mrs. B. C.
Clifford, Phone 100 Gleichen.

DOMESTIC ANIMALS ACT
The provisions of the above act are
in force all the year round and owner
permitting cattle, horses, or other
livestock including chickens to run
at large in the town will be prosecuted.

M. MURRAY,
Secretary-Treasurer.

WARNING
Householders are again warned to
burn up all weeds and rubbish and
to have all garbage in and around
the property occupied by them re-
moved to the unincorporated before
May 10th.

M. MURRAY,
Secretary-Treasurer.

a new Service to western motorists

Co-operative methods of selling
and servicing tires are here.

Leading tire dealers in the West-
ern Provinces have allied them-
selves to provide uniform quality
and value in tires . . . and reliable
tire service . . . to western motorists.
They will be known as
Dominion Tire Depots.

For two years Do-
minion Tire Depots

have been in operation in Ontario
and Quebec to the advantage of
motorists and depot owners alike.
Each shop will maintain its individual
ownership with the whole chain of ser-
vice sponsored by the Dominion Rubber
Company Limited, Canada's largest rubber
organization.

All Dominion Tire
Depots are now being
painted a uniform color
scheme of orange and
blue. All will bear the
Dominion Tire Depot
sign.

You are invited to call at your nearest Dominion Tire Depot and have
your tires inspected and pressures checked and learn about the
advantages of Dominion Tire Depot Service.
